NAAC Accredited Grade –“A+”

No: (Proj/ECE/IOT/KU/24/02)
Date: 18/04/2024

NOTICE

The students of B.Tech 7th Semester (Batch 2020) are hereby informed that their final project groups and the list of allotted Supervisor/Co-Supervisor is annexed herewith. The students are directed to submit ideas/informal proposals for their projects on 25th and 26th April 2024, according to the sequence given in annexure III. The students are encouraged to come up with any novel, innovative and creative idea and need not necessarily specify the underlying technology/theoretical concepts involved in its implementation.

The ideas/proposal should, in very broad terms target problem solving including but not limited to the following:

- Solution or steps towards solving the local/regional problems of day to day life.
- Procedure/s for achieving efficiency in any existing system or any aspect of socio-economic importance such as healthcare, agritech, cleantech, deeptech etc.
- Procedure/s for efficient delivery of various public services by augmentation/improvement in existing mechanisms and infrastructure. This may also pertain to your own University or Department.
- Extension/Improvement of already implemented projects by students of previous batches of the department.
- The above mentioned points are only to aid the student's imagination, nevertheless students are encouraged to submit/put forward any idea out of their imagination and curiosity.

There will be many presentations in due course of time related to the project work, so the students are expected to be precise and present only the relevant information in each presentation. For the presentations scheduled on 25th and 26th April 2024 the students will be evaluated on the clarity of project idea and motivation for choosing the same. Other guidelines for preparation of presentation are given in annexure II.

NOTE: The group numbers allotted are final and will be used for further communication by the project incharge.

ANNEXURE II

Guidelines for preparation of Presentations

Following guidelines should be followed by the students for the preparation of their first presentation.

1. The presentation should primarily focus on the idea of the project, motivation for choosing the topic and the problem it is targeting. It should thus be restricted to that and not include any literature survey or methodology.
2. The presentation should be prepared in a manner that is clearly visible and comprehensible to the faculty evaluating the same.
3. The students are encouraged to use less text and more graphical/tabular representations to convey the information.
4. All the members of the group should prepare the presentation and anyone can be asked to deliver before the panel.
5. Proper references of the sources from where the information is obtained should be mentioned. For any queries related to referencing the students should reach out to their Co-Supervisors.
6. The presentation should be approved by the concerned Co-Supervisor before it is presented. Negligence in reporting to the Co-Supervisor will directly affect the overall internal grade of the project.
7. Every slide should have a proper heading and numbering.
8. The presentation should have a proper flow and should not be presented in a haphazard manner.
9. The students should be prepared for cross questioning from the panel.
10. Any group with an unsatisfactory presentation will have to repeat the same till it is approved by the committee.
